Protecting Your Rights as a Consumer

Consumer protection laws are designed to protect consumers like you from predatory lenders, overzealous debt collectors, careless credit bureaus and other harmful business practices. At Edelman, Combs, Latturner & Goodwin, LLC, we work to enforce existing consumer protection statutes to resolve consumer problems with:

- Unfair collection practices/debt collection harassment
- Unwanted telemarketing calls (robocalls) and spam texts
- Junk faxes
- Identity theft
- Credit reporting problems
- Mortgage problems

In addition, we handle a variety of individual cases and class actions covering a wide range of legal areas. For example, we provide debt collection defense against payday and other high-interest lenders and predatory mortgage companies. We also assist clients with problems with car loans and repossessions and with wage and hour claims.

Enforcing Consumer Protection Statutes

Our Chicago attorneys have conducted seminars, testified and written extensively on consumer protection laws. Our groundbreaking work in support of consumers' rights has helped define the enforcement of consumer protection statutes such as the federal Truth in Lending Act, the Illinois Consumer Fraud Act, the Fair Debt Collection Practices Act, the Fair Credit Reporting Act and many others. When you retain us, you are retaining one of the leading law firms on the subject of consumer rights.
