The St. Louis VAMC is a full-service health care facility providing inpatient and ambulatory care in medicine, surgery, psychiatry, neurology, and rehabilitation, as well as over 65 subspecialty areas. It is a two-division facility that serves veterans and their families in east central Missouri and southwestern Illinois.

The **John Cochran Division**, named after the late Missouri congressman, is located in midtown St. Louis in close proximity to its affiliated medical schools - St. Louis University and Washington University. It has all of the medical center's operative surgical capabilities, the ambulatory care unit, and a six-story Clinical Addition that includes surgical facilities, intensive care units, outpatient psychiatry clinics, and expanded laboratory.

The **Jefferson Barracks Division** is a multi-building complex overlooking the Mississippi River in south St. Louis County. It provides psychiatric treatment, regional spinal cord injury treatment, a nursing home care unit, geriatric health care, rehabilitation services, and a rehabilitation domiciliary program for homeless veterans.

The St. Louis VA Medical Center is associated with Community Based Outpatient Clinics (CBOCs) in Belleville, IL; St. Charles, MO; and the Missouri Veterans Home in North St. Louis.
