Safety Manuals

OSHA Source consultants can customize an OSHA-compliant, Company Safety Manual, Safety

Program and Injury and Illness prevention program specific to your state and industry. All safety manuals are in Microsoft Word® format so you can easily make any future revisions. Each safety manual includes all of the various forms and checklists required for implementation. Order today and receive a free Employee Safety Orientation Training Kit.

Safety Videos

OSHA Source, LLC is about safety training with literally hundreds of video

training programs for a wide variety of industries. Our trademark has always been to provide training videos that are affordable to small and larger sized businesses. OSHA Source has done more to increase the safety of workers and organizations than any other organization in our industry. Millions of management, supervisors and employees have been trained with our programs. With our new video technology, we will soon revolutionize the way training is conducted all over the world.
