SAFETY MANUAL

We can supply your business with a safety manual that is custom specific to your industry - and is in compliance with

all applicable Federal and/or State OSHA requirements. Each safety manual is custom built, beginning with the combination of all the various standards that are needed to meet the requirements of your Industry. Your company's safety information is then integrated into the document, using approximately 15 different variables to create your company's OSHA compliant safety manual. Each manual also includes a safety training program and 30 safety forms.

OSHA COMPLIANCE

If OSHA doesn't get you, the lawyers probably will. Avoid costs and time lost resulting from accident

investigation, depositions, lawsuits, and paperwork. Avoid stiff penalties; as of June 14, 1994 OSHA raised the minimum penalty from \$5,000 to \$25,000 and even criminal charges can be imposed. With our help there are no more worries if OSHA visits. We will supply everything you need to complete your safety and health management plan.

to your State's OSHA Specific Requirements. The safety manual is anywhere from a 300 to 800 page document covering you on all OSHA issues. We customized the manual for your business and will include your company logo if you send it to us (jpeg). In addition to a hard copy, it can optionally be supplied on a Compact Disk in the MS Word and PDF formats. Updates and revisions, as mandated from the state, will follow as the legal requirements change. Normally, updates are sent out at no cost, with the cost of major updates available at a nominal fee, depending on the complexity of the update. In either event, you will be notified in advance of all the options and cost.
