# BOP Implementing Modified Oper

In order to mitigate the spread of COVID-19, the BOP is operating under the follow

**SOCIAL VISITS:** Social visits are suspended. Inmate telephone system minutes will be increased calendar month Bureau-wide.

**INMATE MOVEMENT (Updated):** As we previously described generally, inmate internal movement is limited to limited exceptions. This suspension, however, does not mean the BOP has ceased all inmate movement. Federal judicial system as well as state courts continue to process criminal cases.

These movement exceptions may include, but are not limited to, transfers related to forensic services, Interagency Agreements on Detainers (IAD), medical or mental health treatment (including local medical treatment placements). **The BOP also needs to move inmates to better manage the detention bedspace that administrative facilities do not become overcrowded beyond available resources.**

The BOP and the USMS are coordinating carefully to transport and transfer federal inmates into the prison environment while taking proactive steps, including aggressive testing, to mitigate the transmission of COVID-19 in the prison environment. The Bureau is processing all newly-sentenced BOP inmates through one of the following: FCC Yazoo City, MS; FCC Victorville, CA; and FTC Oklahoma City, OK, or to a BOP detention center. All inmates will test all inmates upon arrival at a BOP detention center/jail unit or at one of the three quarantine facilities. All inmates will be tested again before movement to their designated BOP facility.

- Inmates being released to community custody are quarantined for 14 days prior to release. If the inmate has no symptoms and a temperature less than 100.4 degrees F, the inmate will be released.
- If the inmate has COVID-19 symptoms, or temperature greater than 100.4 degrees F, the inmate will be placed in isolation and will instead be immediately placed in isolation.

**LEGAL VISITS:** Legal visits will be suspended for 30 days, at which time the suspension will be lifted upon case approval at the local level and confidential legal calls will be allowed in order to ensure access to legal counsel. If approved for an in-person visit, the attorney will need to undergo screening using the same process as inmates.

*Access to legal counsel remains a paramount requirement and will be accommodated to the extent practicable. Although legal visits are generally suspended for 30-days, case-by-case accommodations will be made.*

*the local level. If approved for an in-person visit, the attorney will need to undergo advanced health screening, to include a temperature check.*

**OFFICIAL STAFF TRAVEL:** Official staff travel, with the exception of relocation travel, is suspended.

**TRAINING:** All staff training is suspended (to include conferences and meetings), with the exception of training for new staff.

**CONTRACTORS:** Contractors performing essential services or necessary maintenance on essential services will undergo advanced health screening, to include a temperature check. All other contractor access is suspended. Contractors who require access will be screened using the same procedures as staff prior to entry.

Essential services include, for example, medical services, mental health services, religious services, and infrastructure repairs.

A copy of [the Visitor/Volunteer/Contractor COVID-19 Screening Tool](#) will be required for all visitor and contractor access. A copy will be provided by staff members at the lobby for all institutions.

**VOLUNTEERS:** Volunteer visits are suspended, unless approved by the Deputy Director of the Department of Corrections. Requests for communication will be considered for inmates who request to speak with a religious advisor. Requests for access will be screened using the same procedures as staff prior to entry.

A copy of [the Visitor/Volunteer/Contractor COVID-19 Screening Tool](#) will be required for all visitor and contractor access. A copy will be provided by staff members at the lobby for all institutions.

**SCREENING OF STAFF:** Enhanced health screening of staff is being performed at all BOP locations. Staff screening includes self-reporting and temperature checks.

**SCREENING OF INMATES:** The BOP will continue to screen inmates for COVID-19 following the following practices:

- All newly-arriving BOP inmates are processed through quarantine or jail/detention sites and screened for COVID-19 exposure risk factors and symptoms.
- Asymptomatic inmates with exposure risk factors are quarantined.
- Symptomatic inmates with exposure risk factors will be isolated and tested for COVID-19 following health authority protocols.

**TOURS:** Tours are suspended. Any exceptions must be approved by the Deputy Director. If approved, visitors will be screened using the same procedures as staff prior to entry.

**MODIFIED OPERATIONS:** BOP is implementing modified operations to maximize social distancing as much as practicable. To that end, inmates are limited in their movements to prevent congregation and maximize social distancing. Essential inmate work details, such as Food Service, continue to operate. Inmate movement in small numbers is authorized for the following purposes:

- A. Commissary
- B. Laundry
- C. Showers three times each week

## D. Telephone, to include legal calls, and access to TRULINCs

Note that inmate movement is still expected to allow, when necessary, for the provision of required medical care, including continued Sick Call. Select Unicor operations also continue.

**PRIVATE DETENTION CONTRACTORS:** This COVID-19 guidance is being shared with private dissemination to staff and inmates in these facilities, so that similar protocols can be implemented.
