

FERC
FEDERAL ENERGY REGULATORY COMMISSION

Addressing the 2000-2001 Western Energy Crisis

Western Energy Crisis Settlements

The Federal Energy Regulatory Commission's wide-ranging response to the 2000-2001 Western energy crisis is a detailed and complex narrative. It still is unfolding to this day.

Commission staff concluded in a March 2003 final investigation report on the Western energy crisis that market conditions involving diminished power supplies due to drought conditions, inadequate infrastructure and a flawed power market design contributed to the market manipulation that prolonged and exacerbated the economic harm caused by the crisis.
