## PRODUCT OVERVIEW

Be a better media buyer! MediaBank O|X is the order management and workflow solution for the entire media spectrum. MediaBank O|X allows you to manage every part of the media buying lifecycle for print, digital/web/emerging media, out of home, spot/cable, network, direct response and production.

[LEARN MORE](#)

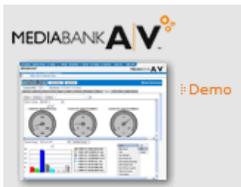

Be a smarter media buyer! Tracking, reporting of and optimizing in-flight and historical campaigns is essential for success. MediaBank A|X provides state-of-the-art analytics of media buying effectiveness, results and more (including ad hoc queries) across multiple media types.

[LEARN MORE](#)

Be a more cost-effective media buyer! MediaBank V|P is MediaBank's integrated exchange portal which allows for optimal buying and selling activity across multiple media types.

[LEARN MORE](#)

Effectively manage your media with the industry's only pure web solution. MediaBank A|V provides real-time agency integration with minimal disruption during implementation. The most cost effective solution to manage traditional and interactive advertising for small to medium-sized agencies.

[LEARN MORE](#)

Complete the package by utilizing F|P to significantly increase your company's ability to keep its financials up to date, accurate, and in lock step with production. F|P is specifically geared to handle the needs of an agency providing everything from A/R, A/P, and general ledger support to a web-based production system handling all job jacking and tracking.
