Very good meat! Tastes good too

I tried all three types of meats. While I loved the meat, I didn't care for the seasoning. I ordered original and for me it was too spicy. And then I look at the package, and I find that they add smoke flavoring. In my opinion if you have great meat, which you have, don't ruin it by adding too much toward your. marinade. To me it isn't all natural, unless you actually smoke it. No more fake smoke, and keep it simple.
