PCS Electrical Products

PCS Electrical Products is a UL508A Certified Control Panel shop, authorized to build, fabricate and integrate control solutions. We focus on new motor control buckets and new, UL-listed, vintage MCB replacement parts.

We serve customers in several specialized and highly regulated industries such as petrochemical, wastewater treatment, industrial manufacturing and mining.

Our relationships with the electrical component manufacturers combined with our technical expertise give us the ability to fabricate almost any part and many times, ship it the same day the order is placed.

Saving you Time

We know that saving you time also saves you money. No one can afford costly down-time. We can build the exact parts that you need to provide a solution, not just make a temporary fix.

Whether you are dealing with an emergency parts failure or need to source obsolete components, call us. In many, if not most cases, we can provide immediate, cost-effective solutions. Sometimes, it can even be done overnight.

Our Product Lines Include:

- ✓ Cutler Hammer
- ✓ Westinghouse
- ✓ Allen Bradley
- ✓ ABB
- ✓ GE
- ✓ Federal Pacific
- ✓ Sylvania Clark
- ✓ Square D
- ✓ Allis-Chalmers
- ✓ Challenger
- ✓ Bryant
- ✓ Siemens
- ✓ Furnas
- ✓ ITE/Gould

Testimonials

"PCS came to our aid in a very timely manner. We had a problem with our MCC buckets and PCS provided us with the equipment we needed. We were able to get our production line up and running in a matter of days. We are very grateful for the service PCS provided. They have unbelievable product knowledge and exceptional service. I highly recommend PCS to anyone who needs immediate solutions for their production lines."
