## Academics

### Elementary Education

The Special Education Department is accountable for ensuring that all special education programs, regulations, and procedures are in compliance with the Individuals with Disabilities Education Act (IDEA) and eligible children and youth with disabilities are receiving a Free Appropriate Public Education (FAPE).

Inclusion and Resource Room services, available in all IPS schools, provide students with disabilities with the support they need in order to be academically successful in the general education environment. Special Education teachers provide an array of services to students with disabilities including direct instruction in reading/language arts, writing, mathematics, and organizational skills.
