What services are available?

The IDHS Division of Developmental Disabilities provides person-first services and supports for individuals with developmental disabilities and their families.

Possible services include:

- In-home supports to help you live more independently.
- Respite care to provide temporary relief to your caregiver.
- Training Programs to teach you life and work skills.
- Residential living arrangements to provide you with the security and care you need.
- Adaptive equipment to make you more independent.
- Other supports to improve your quality of life.

How can I access these services?

IDHS maintains a statewide database of people with developmental disabilities who need services. This database helps us make sure services are available to you and your family when you need them.

You must first contact your PAS/ISC agency for an interview

Based on the information you provide during this interview, the PAS/ISC will complete a "Prioritization of Urgency of Need for Services" (PUNS) form, and will put your need for services into one of these categories:

- Emergency - You need immediate services
- Critical - You will need services within 1 year
- Planning - You will need services in 1 to 5 years

A completed PUNS form does not mean that you are eligible for services, and does not guarantee that services will be provided. However, it ensures that the IDHS knows about your need for services.

What if my needs change?

Your needs will be evaluated at least once per year. You may ask for a reevaluation at any time due to a change in circumstances.
