Criminal Alien Program

SHARE

U.S. Immigration and Customs Enforcement (ICE) places a high priority on combating illegal immigration, including targeting illegal aliens with criminal records who pose a threat to public safety.

The Criminal Alien Program (CAP) provides ICE-wide direction and support in the biometric and biographic identification, arrest, and removal of priority aliens who are incarcerated within federal, state, and local prisons and jails, as well as at-large criminal aliens that have circumvented identification. It is incumbent upon ICE to ensure that all efforts are made to investigate, arrest, and remove individuals from the United States that ICE deems priorities by processing the alien expeditiously and securing a final order of removal for an incarcerated alien before the alien is released to ICE custody. The identification and processing of incarcerated criminal aliens, before release from jails and prisons, decreases or eliminates the time spent in ICE custody and reduces the overall cost to the Federal Government.
