Robert Lin consulting "returned overseas family planning policy," replies

2008-05-06 source: Web site of the better homes "size: small "

Returned overseas family planning policy Robert Lin

How do you do! I have a friend, husband and wife were both Fuzhou, a dozen years ago, smuggle them to the United States, and the United States gave birth to a male and a female United States citizen children.

Now they want to take the kids back to China, because they are in the United States are illegal immigrants, but it is still a Chinese citizen, if they return home, they will be in China for two United States citizen children registered accounts in China. Because they are like kids, want to regenerate a child in China, whether they violated China's one-child policy, to pay social maintenance fee? Or the hospital sterilization? They were worried that will happen and look forward to your response. My sincere thanks to his Excellency!

Comrade Robert Lin:

April 29 message you received the following reply:

First, settle down, family planning will comply with local laws and regulations.

Second, do you think, fertility, a man and a women and two children, has violated the provisions of the Fujian Provincial population and family planning regulations.
