# Clean Slate Program

We created Clean Slate Program more than five years ago with Stanford's depth and breadth of expertise to explore what kind of Internet we would design if we were to start with a clean slate and 20-30 years of hindsight.

projects that led to a few

flagship projects that show lot of promise.

Though the mission was well defined, the potential approach was not. We began

with a number of small exploratory

We are pleased to report that Clean Slate Program led to many small projects and the following four on-going flagship projects that have the potential to transform different parts of the Internet.

- Internet Infrastructure: [OpenFlow and Software Defined Networking](#)
- Mobile Internet: [POMI 2020](#)
- Mobile Social Networking: [MobiSocial](#)
- Data Center: [Stanford Experimental Data Center Lab](#)

Clean Slate Program has ceased to exist as of January 2012 and has successfully transformed into these four large projects. We invite you to visit the website of these projects, become familiar and get involved.
