Facility Information

The mission of Menard Correctional Center is to confine adult male offenders in a safe, secure and humane manner; preserve and promote individual rights and responsibilities; and in turn, ensure ultimate protection of society. Inherent within this purpose is the offering of program activities for inmates housed within the institution. Inmates are afforded the opportunity to explore and participate in programs designated to assist them

toward a successful reintegration into society. It is essential that these functions be conducted within the realities of the security needs of a maximum-security correctional center.

Menard Correctional Center was established on the banks of the Mississippi River in 1878. The maximum-security facility changes in elevation over 200 feet and includes more than 2,600 acres with 41 acres enclosed by perimeter. The facility is comprised of 155 buildings totaling 1,294,000 square feet. Menard is the state's largest maximum security adult male facility. The center consists of five housing units, a receiving and orientation unit, segregation unit and a health care unit. Also included is the **[Menard medium-security unit. \(/idoc/facilities/Pages/menardmediumsecurityunit.aspx\)](/idoc/facilities/Pages/menardmediumsecurityunit.aspx)**
