KRUEGER LAW FIRM: WE PROTECT YOUR RIGHTS

When an individual is harmed through negligence or deliberate action, whether by another individual or by a giant corporation, the law provides channels for that individual to receive appropriate compensation from the offending party.

If you've got the basis for a legal case, protect your rights: don't sign anything, don't walk into the courtroom by yourself, and don't take legal advice from anyone except your lawyer. Contact Krueger Law Firm for your initial consultation with an accident and injury lawyer. Our office has specialized and focused 100 percent on personal injury lawsuits since 1990. We only represent the injured victims. There are no fees or costs if you don't receive a recovery. We never represent insurance companies, so the injured person does not have to wonder whose interests the attorney really has in mind.

We are recognized as one of Minnesota's top accident and injury law firms. Besides attorneys, we also have paralegals, legal secretaries, investigators, interpreters, and case managers that work on your injury claims. If the attorney is in court, there are others that would be knowledgeable about your case. Protect your rights. Call us today for a free consultation. We offer same day appointments, and we will come to your home or hospital for visits.
