[NICHQ Vanderbilt Assessment Scales](#)

The NICHQ Vanderbilt Assessment Scales were developed through the [Attention Deficit Hyperactivity Disorder \(ADHD\) Learning Collaborative](#) project. This resource is used by healthcare professionals to help diagnose ADHD in children between the ages of 6 and 12; they are just one of the resources available in both the 1st Edition (2002) and 2nd Edition (2011) of the [Caring for Children with ADHD](#) toolkit.

Download the NICHQ Vanderbilt Assessment Scales

Click the link below to get the *Vanderbilt Assessment Scales* included with the **1st Edition** of the toolkit.

Source: NICHQ, American Academy of Pediatrics, McNeil

Published: 2002

Important

- NICHQ offers a free download of the Scales from the *1st Edition (2002) only*.
- **You may use/distribute the 1st Edition Vanderbilt Assessment Scales as long as NICHQ is credited as the original source.**
- The *1st Edition* is available in **English only**.
- If you wish to access the version of the Scales included in the **2nd Edition (2011)**, you **must purchase the entire toolkit** from the [AAP Bookstore](#)
- See the [Important Notices](#) on the ADHD toolkit page for more information.

We're Changing The World

Every day, with the help of a network of exceptional experts and dedicated partners, we're inching closer to our vision of a world in which all children achieve their optimal health. Learn more about NICHQ's impact on the world in our [2015 Impact Brochure](#).
