The Bureau of Prisons (BOP) is carefully monitoring the spread of the COVID-19 virus. As with any type of emergency situation, we carefully assess how to best ensure the safety of staff, inmates and the public.

COVID-19 Cases

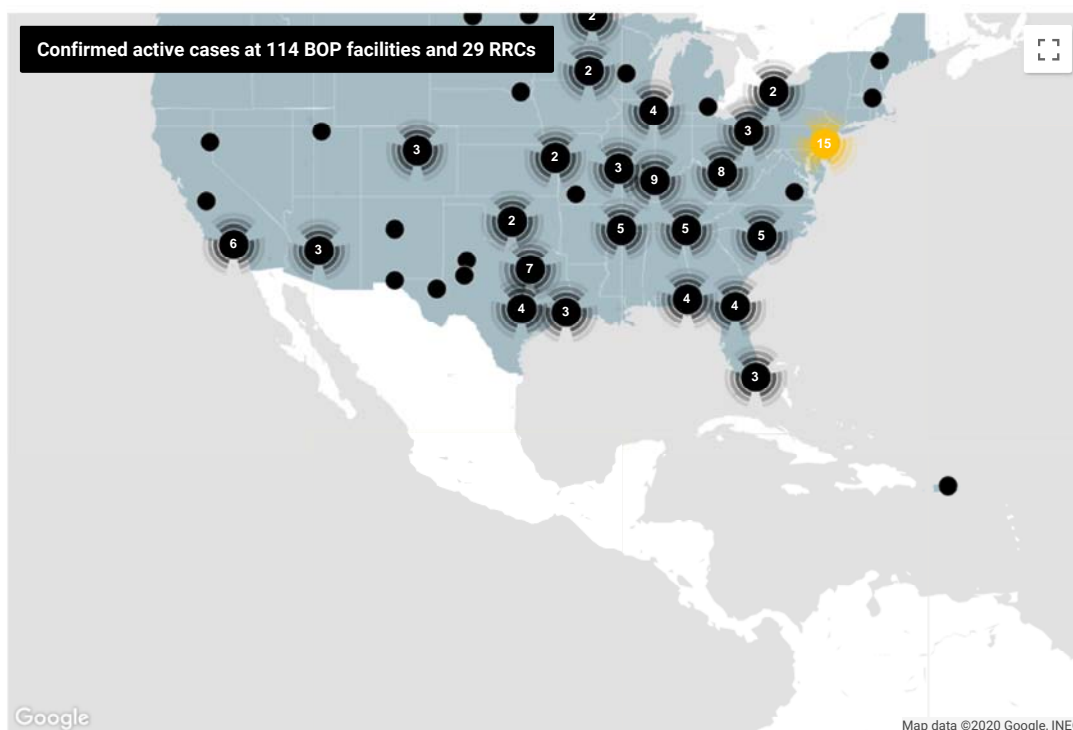

11/09/2020 - The BOP has **125,155** federal inmates in BOP-managed institutions and **14,218** in community-based facilities. The BOP staff complement is approximately **36,000**. There are **2,365 federal inmates** and **953 BOP staff** who have confirmed positive test results for COVID-19 nationwide. Currently, **16,831** inmates and **1,525** staff have recovered. There have been **135** federal inmate deaths and **2** BOP staff member deaths attributed to COVID-19 disease. Of the inmate deaths, **4** occurred while on home confinement.

Due to the rapidly evolving nature of this public health crisis, the BOP will update the open COVID-19 confirmed positive test numbers, recoveries, and the number of COVID-19 related deaths each weekday at 3:00 p.m. The positive test numbers are based on the most recently available **confirmed lab results** involving **open cases** from across the agency as reported by the BOP's Office of Occupational Health and Safety at 11:00 a.m. each day. BOP field sites may report additional updates throughout the day. Data is subject to change based on additional reporting.

The BOP has begun additional testing of asymptomatic inmates to assist in slowing transmissions within a correctional setting. As such, our data reflects an increase in the number of COVID-19 positive tests reflected in the table below. The BOP is able to better utilize this information for the management of an outbreak at the relevant, affected facility.

The inmate totals listed do not include inmates participating in the Federal Location Monitoring program, inmates supervised under the USPO, or being held in [privately-managed prisons](#) or state facilities/jails. Additionally, the reference to the FCI Butner Low below refers to an isolation unit that is physically separated from the rest of the LSCI. References to RRCs include both individuals housed at the RRC and individuals on home confinement under the RRC's supervision.

COVID-19 Home Confinement Information

Given the surge in positive cases at select sites and in response to the Attorney General Barr's directives, the BOP began immediately reviewing all inmates who have COVID-19 risk factors, as described by the CDC, to determine which inmates are suitable for home confinement. Since the release of the [Attorney General's original memo](#) to the Bureau of Prisons on March 26, 2020 instructing us to prioritize home confinement as an appropriate response to the COVID-19 pandemic, the BOP has significantly increased its placement of offenders on home confinement. Currently, the BOP has 7,977 inmates on home confinement. The total number of inmates placed in home confinement from March 26, 2020 to the present (including inmates who have completed service of their sentence) is 16,777.
