Welcome to Vee's Marketing!

We are a time tested produce brokerage that specializes in one commodity...onions. We are experts in sourcing quality onions at competitive prices.

For the last 20 years, Vee's Marketing, Inc has provided retail and foodservice customers in the US and Canada with a trusted supply of quality onions. We procure and distribute onions from all districts in season from Huron, CA to Vidalia, GA and everywhere in-between.

We purchase [yellow](#), [red](#), [white](#), and [sweet](#) onions from the most reputable onion shippers across North America. It is our policy to take care of our customers, shippers and transportation providers equally.

We are proud of our [history](#) of providing our customers with high quality onions on time and at competitive prices. We take care of our vendors by paying them quickly. We also take title of the product, and we work very hard to ensure onions are taken care of properly in transit and reach their destination on time.

Thank you to all of our customers, onion shippers, and transportation companies.
