Estimates cost of manufacturing paperboard boxes, according to specifications, blueprints, and diagrams, using tables, charts, and arithmetic calculations: Confers with plant production personnel to select machines for possible use in manufacturing boxes. Reads tables to estimate cost of each production operation. Determines positions of pattern on blank (paperboard sheet) to minimize waste and facilitate operations on machines. Calculates total material to be used and total material cost, using calculator and considering quantity, quality, and style of box, packaging, and delivery rates. Submits total estimate to sales department. May estimate cost of manufacturing boxes made from other types of materials.

GOE: 05.09.02 STRENGTH: L GED: R4 M4 L4 SVP: 6 DLU: 77

221.362-022 PROGRESS CLERK (construction)

Records and reports progress of construction work: Reviews information, such as daily record of activities (log), records of materials received and used, and reports from various workers. Prepares and types report. May inspect and measure work completed. May photograph construction work at various stages of completion to report progress pictorially.

GOE: 07.05.03 STRENGTH: L GED: R4 M3 L3 SVP: 5 DLU: 77

221.362-026 RAILROAD-MAINTENANCE CLERK (r.r. trans.)

Compiles and records information pertaining to track and right-of-way repair and maintenance by railroad section crews, such as materials used, types and locations of repairs made, and hours expended. Types or writes requisitions for materials needed. May keep daily time records [TIMEKEEPER (clerical)] and compile maintenance reports for specific section crew and be designated Road Clerk (r.r. trans.). May compile daily, weekly, and monthly composite reports and be designated Section-Crews-Activities Clerk (r.r. trans.).

GOE: 07.05.03 STRENGTH: S GED: R3 M3 L3 SVP: 4 DLU: 77

221.362-030 COMPUTER PROCESSING SCHEDULER (clerical)

Schedules work for computer processing and monitors execution of schedule, using software and computer terminal: Reviews computer processing job requests received from programmers and computer users, and talks with programmers and users to determine processing requirements, such as computer time and memory required, and priority. Develops processing schedule, using computer terminal and job scheduling software. Reviews completed schedule to detect conflicts and ensure availability of memory and other computer resources, using computer terminal. Talks with programmers and users to resolve conflicts in schedule. Enters commands to ensure that new processing jobs do not hinder computer operation, following programmers' specifications. Monitors computer terminal display to detect problem, and to ensure that data entered are correct and that jobs will run as scheduled. Corrects problem, such as failure of program to run, or program running incorrect sequence. May establish guidelines for scheduling work. May train other workers in use of scheduling software.

GOE: 07.05.01 STRENGTH: S GED: R4 M2 L4 SVP: 6 DLU: 90

221.367-010 ALTERATIONS WORKROOM CLERK (retail trade)

Schedules distribution of garments received for alterations within alteration workroom of retail store: Receives garment from sales floor, checks accuracy of entries on sales slip against garment tag, and removes section of tag for record purposes. Segregates garments on racks and distributes work according to nature of alteration and completion date specified on tag. Receives tags from alteration workers upon completion of alterations and matches with tags in file. Transcribes figures from tag to production record of each worker and computes daily and weekly figures, using adding machine. Answers telephone calls from customers regarding status of garments being altered and complaints about unsatisfactory alterations on completed garments.

GOE: 05.09.02 STRENGTH: L GED: R3 M2 L2 SVP: 3 DLU: 77

221.367-014 ESTIMATOR, PRINTING (print. & pub.)

Estimates labor and material costs of printing and binding books, pamphlets, periodicals, and other printed matter, based on specifications outlined on sales order or submitted by prospective customer: Examines specifications, sketches, and sample layouts, and calculates unit and production costs, using labor and material pricing schedules, and considering factors such as size and number of sheets or pages, paper stock requirements, binding operations, halftones, number and units of colors, and quality of finished product, to determine cost effective and competitive price. Confers with department heads or production personnel to develop or confirm information regarding various cost elements. May estimate cost of mailing finished printed matter if specified on order. May estimate labor and material cost of specific phase of printing, such as plate making or binding, and be designated according to specialty as Estimator, Printing-Plate-Making (print. & pub.) or Estimator, Binding (print. & pub.).

GOE: 05.09.02 STRENGTH: L GED: R4 M3 L3 SVP: 6 DLU: 89

221.367-018 FOLLOW-UP CLERK (elec. equip.)

Locates, gathers, and groups, according to specifications, parts required to complete switchgear units at place of installation: Prepares list of parts and materials, such as circuit breakers, transformers, bus-bars, wiring materials, insulation, hardware, paints, and ventilating pipes. Locates parts in plant by consulting production records, supervisors, and production personnel. Gathers parts dismantled from switchgear units. Fills orders for accessory parts from stockroom and withdraws repaired items

from repair department. Groups parts according to pattern in which switchgear units are split up for shipment. Tags items with identifying information and routes to inspection and shipping department. Posts information on status of accessory, split, and repair orders in production book.
GOE: 05.09.02 STRENGTH: M GED: R4 M3 L3 SVP: 6 DLU: 77

221.367-022 INDUSTRIAL-ORDER CLERK (clerical)

Verifies completion of industrial orders and conformance of product to specifications: Compares blueprints with contract or order to ascertain that product meets engineering specifications. Communicates with customer and delivery personnel to verify delivery of product. Fills out completion slip after order is filled. May route products not meeting specifications to production units for correction.
GOE: 05.09.03 STRENGTH: S GED: R4 M3 L4 SVP: 4 DLU: 77

221.367-026 LINE-UP WORKER (auto. mfg.) alternate titles: scheduler; scheduler, conveyor; transfer and line-up worker

Relays scheduling information to workers on automotive assembly line: Reads production schedule and computer printouts and relays information orally or by written instructions. Verifies conformity of assemblies and parts on conveyor lines with scheduling information. Notifies workers to switch parts and assemblies not in sequence. Enters production data in computer, using keyboard or laser reader.
GOE: 05.09.02 STRENGTH: L GED: R3 M2 L2 SVP: 3 DLU: 78

221.367-030 LOCOMOTIVE LUBRICATING-SYSTEMS CLERK (r.r. trans.)

Keeps and reviews records and reports pertaining to locomotive lubricating systems and advises railroad repair shops when locomotives require oil change or repair to lubricating systems: Scans incoming reports to identify locomotives with oil contamination. Dials computer dial phone to obtain location of oil-contaminated locomotives. Telephones and directs clerks at reported locations to notify maintenance personnel to determine contamination causes and make necessary repairs. Requests that locomotives be pushed to nearest repair shops when bad-oil reports indicate need for major repairs. Reviews reports to identify locomotives requiring repeated repairs and advises need for major repairs to prevent possible crankshaft damage. Verifies and records informational data on all repairs. Plots weekly and 10-week-average graphs and prepares reports on locomotives' lubrication oil and lubrication systems. May test locomotive water for chromate contents, using spectrophotometer, and notify repair shops of need for rust or clogging-preventative additives.
GOE: 07.05.01 STRENGTH: S GED: R3 M2 L3 SVP: 5 DLU: 77

221.367-034 MACHINE-STOPPAGE-FREQUENCY CHECKER (textile) alternate titles: frequency checker; survey hand

Records number and cause of machine stoppage on textile machines, such as looms and spinning frames, for payroll, work assignment, and quality control purposes: Observes machine and questions worker to determine reason for machine stoppage. Records information on forms for analysis by management. May perform quality control tests on samples, such as measuring variations in thickness and testing tensile strength, using testing equipment. May record and total items, such as material and labor costs to determine plant processing costs. May be known as Loom-Stop Checker (textile) when working in weave room. May be known as Ends-Down Checker (textile) when observing spinning or roving frames.
GOE: 05.09.03 STRENGTH: L GED: R3 M3 L3 SVP: 3 DLU: 78

221.367-038 MAINTENANCE DATA ANALYST (military ser.)

Prepares schedules for preventive maintenance of equipment to ensure uninterrupted operation of equipment: Reviews maintenance schedule to determine preventive maintenance to be performed on equipment. Compares maintenance and staff hour data against monthly maintenance plans, work load estimates, and standards. Calculates amount of human resources required to perform maintenance work. Notifies superiors of maintenance to be performed. Identifies and assists superiors in analysis of material deficiencies, high staff hour action areas, and trends and deviations from schedules and standards. Prepares inspection tests, repair, modification, alignment service, and load schedules for aircraft, missiles, and machinery. Maintains maintenance index file for individual equipment maintenance.
GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 5 DLU: 77

221.367-042 MATERIAL EXPEDITER (clerical) alternate titles: expediter; stock chaser

Compiles and maintains material and parts inventory and status information to expedite movement of material and parts between production areas, according to predetermined production schedules and order priorities: Reads production schedules, inventory reports, and work orders to determine type and quantity of materials required, availability of stock, and order priority. Confers with department supervisors to determine overdue material and parts and to inform supervisors of material status. Locates and distributes materials to specified production areas, manually or using handcart, handtruck, or forklift. Records and maintains perpetual inventory of quantity and type of materials and parts received, stocked, and distributed, manually or using computer. Compiles and maintains records, such as material inventory records, production records, and timecards, manually or using computer. May direct INDUSTRIAL-TRUCK OPERATOR (any industry) 921.683-050 or MATERIAL HANDLER (any industry) 929.687-030 to expedite transfer of materials from stock area to production areas. May examine material received, verify part numbers, and check discrepancies, such as damaged or unmarked parts. May compare work ticket specifications to material used at work stations to verify appropriate assignment. May drive truck to outlying work areas to check status of orders or to deliver materials.
GOE: 05.09.02 STRENGTH: M GED: R3 M3 L3 SVP: 4 DLU: 87

221.367-046 MILL RECORDER, COMPUTERIZED MILL (steel & rel.)

Compiles and feeds input data into computer that controls reduction processing of steel slabs on roughing section of hot-strip rolling mill and records mill production and operating data: Reviews rolling schedule to ascertain operational data, such as slab sizes, metallurgical analysis, and rolling sequences. Contacts heating personnel by intercom system to ascertain stock of scheduled slabs and notifies crew of deviations from rolling schedule. Notifies supervisor when data is in computer. Monitors computer readout and adjusts input data according to read failures, data errors, or when notified by heating personnel of out-of-sequence changes, no changes, or runback of slabs due to insufficient rolling temperature. Prepares production and delay reports from data in logs and information received from mill crew.
GOE: 05.03.03 STRENGTH: L GED: R3 M2 L3 SVP: 5 DLU: 77

221.367-050 RECORDER (steel & rel.)

Records data concerning steel production to ensure that processing procedures are carried out according to specifications: Reads production, heating, or rolling schedule to determine processing specifications. Distributes copies of orders to operating personnel. Observes processing of material; reads gauges, clocks, and automatic recorder; and records and compares information with schedules to ensure compliance with processing specifications. Marks billets (bars) with tags or chalk. Informs supervisor of deviations from processing instructions. Writes reports describing processing delays and deviations. Records steel production information for different types of processes, such as oxygen-furnace pit, open-hearth pit, structural mill, blooming mill, and slabbing mill.
GOE: 05.09.02 STRENGTH: L GED: R3 M2 L3 SVP: 4 DLU: 79

221.367-054 RELAY-RECORD CLERK (utilities)

Compiles, classifies, and keeps reports and records of tests performed by relay field-test crews and transmits supervisor's instructions to relay test crews of electric power company: Prepares reports and verifies accuracy of data submitted by field-test crews in company plant and substation installations. Prepares reports on maintenance and new-installation tests performed at customer's substation. Classifies, files, and issues blueprints and related documents used on construction work by field-test crews. Verifies accuracy of calculations on test reports, such as power or current transformer ratio, circuit breaker time-performance, and transformer winding resistance, using calculator. Summarizes daily field-test reports and posts data in logbooks. Relays supervisor's instructions to test crews, using communication system.
GOE: 07.05.03 STRENGTH: S GED: R3 M3 L3 SVP: 5 DLU: 77

221.367-058 REPRODUCTION ORDER PROCESSOR (clerical)

Reviews request orders for duplication of printed, typed, and handwritten materials and determines appropriate reproduction method, based on knowledge of cost factors and duplicating machines and processes: Reads duplication requests to ascertain number of copies to be made and completion date requested. Confers with order requestor when additional information is necessary to facilitate completion of order. Designates method of duplication, such as photocopying or offset, and routes request orders for processing. Examines completed reproduced material for adherence to order specifications. Keeps files on status of request orders. Keeps supply of standard forms and issues forms as requested.

GOE: 07.05.03 STRENGTH: 5 GED: R3 M2 L3 SVP: 5 DLU: 77

221.367-062 SALES CORRESPONDENT (clerical)

Compiles data pertinent to manufacture of special products for customers: Reads correspondence from customers to determine needs of customer not met by standard products. Confers with engineering department to ascertain feasibility of designing special equipment. Confers with production personnel to determine feasibility of fabrication and to obtain estimate of cost and production time. Corresponds with customer to inform of production progress and costs. May specialize in correspondence dealing with customer service agreements and be designated Service Correspondent (clerical).

GOE: 05.09.02 STRENGTH: L GED: R4 M2 L4 SVP: 6 DLU: 77

221.367-066 SCHEDULER, MAINTENANCE (clerical) alternate titles: dispatcher, maintenance

Schedules repairs and lubrication of motor vehicles for vehicle-maintenance concern or company automotive-service shop: Schedules vehicles for lubrication or repairs based on date of last lubrication and mileage traveled or urgency of repairs. Contacts garage to verify availability of facilities. Notifies parking garage workers to deliver specified vehicles. Maintains file of requests for services.

GOE: 07.05.01 STRENGTH: 5 GED: R3 M2 L3 SVP: 4 DLU: 77

221.367-070 SERVICE CLERK (clerical) alternate titles: repair-service clerk; service-order dispatcher

Receives, records, and distributes work orders to service crews upon customers' requests for service on articles or utilities purchased from wholesale or retail establishment or utility company: Records information, such as name, address, article to be repaired, or service to be rendered. Prepares work order and distributes to service crew. Schedules service call and dispatches service crew. Calls or writes customer to ensure satisfactory performance of service. Keeps record of service calls and work orders. May dispatch orders and relay messages and special instructions to mobile crews and other departments, using radio-telephone equipment.

GOE: 07.04.05 STRENGTH: 5 GED: R3 M2 L2 SVP: 4 DLU: 77

221.367-078 TRAFFIC CLERK (business ser.)

Compiles schedules and control records on work in process in advertising agency to ensure completion of artwork, copy, and layouts prior to deadline and notifies staff and clients of schedule changes: Keeps schedules and records on work to ensure arrival of printing and artwork, as needed, and to ensure completion of copy. Contacts vendors and notifies agency personnel and clients of changes in schedules.

GOE: 07.05.01 STRENGTH: 5 GED: R4 M2 L3 SVP: 4 DLU: 77

221.367-082 WORK-ORDER-SORTING CLERK (utilities)

Sorts and routes work orders for construction of gas or electric mains, service connections, or meter installations: Relays work orders, messages and special instructions by telephone or personal notification to service crews. Keeps control register showing number of work orders received and date completed.

GOE: 07.05.04 STRENGTH: 5 GED: R3 M2 L3 SVP: 5 DLU: 77

221.367-086 CLERK, TELEVISION PRODUCTION (radio-tv broad.)

Schedules use of facility and equipment and compiles and maintains employee work schedules and equipment and facility usage records for public broadcasting station: Schedules personnel based on written or oral requisition for studio usage, equipment needed for television production, and availability of workers. Compiles leave and vacation schedules. Prepares daily and weekly charts that indicate worker assignment and usage of facilities and equipment. Duplicates charts for distribution to staff, using photocopy machine. Revises schedule charts to accommodate changing priorities and worker absences. Compiles and submits timesheet information to payroll office.

GOE: 07.05.01 STRENGTH: 5 GED: R4 M3 L3 SVP: 6 DLU: 86

221.367-090 FORMULA CLERK (textile)

Adapts basic dye formulas for use in dyeing goods in accordance with customer specifications: Reads production orders scheduled for processing to determine number of pounds of yarn or fabric to be dyed. Reviews basic dye formula developed for dyeing specified customer lot to ascertain weights of dyes and chemicals used in basic formula. Computes amounts of dyes and chemicals required to dye specified number of pounds of goods in conformity with customer specifications, utilizing knowledge of machine capacity, applying mathematical formulas and using calculator. Records lot size and dye machine number onto adjusted formula and places formula in designated location for use by dye department personnel. Compiles department production records [PRODUCTION CLERK (clerical) 221.382-018].

GOE: 05.09.02 STRENGTH: 5 GED: R3 M3 L3 SVP: 3 DLU: 86

221.382-010 CHART CLERK (clerical) alternate titles: yield clerk

Performs any combination of following duties to extract statistical data from charts taken from flowmeters and other measuring and recording devices used on pipelines: Calculates volume of natural gas, manufactured gas, and petroleum handled by specific pipelines, using adding machine, calculator, or planimeter, and meter records of gas pressure, temperature, and specific gravity. Compiles reports from measurement charts to indicate quantity of gas produced, transported, and sold. Posts and files charts.

GOE: 07.02.03 STRENGTH: 5 GED: R3 M3 L3 SVP: 4 DLU: 77

221.382-018 PRODUCTION CLERK (clerical) alternate titles: plant clerk; production checker; production-control clerk; production-posting clerk

Compiles and records production data for industrial establishment to prepare records and reports on volume of production, consumption of raw material, quality control, and other aspects of production, performing any combination of following duties: Compiles and records production data from such documents as customer orders, work tickets, product specifications, and individual-worker production sheets, following prescribed recordkeeping procedures, using typewriter, computer terminal, and writing instruments. Calculates factors, such as types and quantities of items produced, materials used, amount of scrap, frequency of defects, and worker and department production rates, using adding machine or calculator. Writes production reports based on data compiled, tabulated, and computed, following prescribed formats. Maintains files of documents used and prepared. Compiles from customer orders and other specifications detailed production sheet or work tickets for use by production workers as guides in assembly or manufacture of product [ORDER DETAILER (clerical) 221.387-046]. Prepares written work schedules based on established guidelines and priorities. Compiles material inventory records and prepares requisitions for procurement of materials and supplies [MATERIAL CLERK (clerical) 222.387-034]. Charts production, using wall chart, graph, or pegboard, based on statistics compiled, for reference by production and management personnel. Sorts and distributes work tickets or material to workers. May compute wages from employee timecards and post wage data on records used for preparation of payroll [PAYROLL CLERK (clerical) 215.382-014]. May be designated according to type of data recorded as Machine-Load Clerk (woodworking); department or division of establishment to which data pertains as Production Clerk, Lace Tearing (tex. prod., nec); Mill Recorder (nonfer. metal); or work aids used as Production-Control Pegboard Clerk (garment).

GOE: 05.03.03 STRENGTH: 5 GED: R3 M3 L3 SVP: 4 DLU: 86

221.382-022 REPAIR-ORDER CLERK (clerical) alternate titles: work-order clerk

Receives interdepartmental work orders for construction or repairs, routes work orders to maintenance shop, and compiles cost reports: Files copy of each work order received, and routes original copy to maintenance shop. Receives and files cost reports of work accomplished, and prepares bills to be charged against department requesting construction or repairs. Types cost reports of work completed or in progress.

GOE: 07.05.03 STRENGTH: 5 GED: R3 M3 L3 SVP: 3 DLU: 77

221.382-026 SAMPLE CLERK (furniture)

Operates pantograph, camera, and adding machine in pattern department of furniture plant to estimate upholstery costs: Places cardboard pattern on workbed and plastic sheet on mounting plate of reduction machine. Moves stylus on tracing arm of pantograph around edge of pattern to control movement of heated cutting needle that cuts reduced plastic pattern of upholstery part. Arranges pattern pieces on scaled table to facilitate maximum fabric usage from standard spread of cloth. Operates camera mounted on adjustable stand to photograph pattern layout. Files pattern parts and developed camera print for reference by other workers. Compiles cutting, sewing, and fabric cost data, using adding machine, standardized computation sheets and formulas, and pattern layout information.

GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 4 DLU: 86

221.387-010 BACK-SHOE WORKER (boot & shoe)

Compiles production records and replaces damaged or missing shoes or shoe parts to complete departmental order: Records each completed step in shoe assembly by entering identifying number of workers who performed operation. Posts record of shoe shortages caused by damage or lack of material. Completes orders by gathering parts or completed shoes from bins and racks to replace items damaged or lost in processing.

GOE: 05.09.02 STRENGTH: L GED: R3 M2 L3 SVP: 4 DLU: 77

221.387-014 COMPLAINT CLERK (boot & shoe) alternate titles: repair clerk; returns clerk

Examines shoes returned by customers and distributes shoes for repair: Examines shoes to determine repairs required and responsibility for repair charges. Writes work order, specifying repairs to be made. Carries shoes with work orders to worker or department responsible for repair. May contact customers by mail or telephone to give or obtain information regarding complaints and repairs.

GOE: 05.09.02 STRENGTH: L GED: R3 M1 L3 SVP: 4 DLU: 77

221.387-018 CONTROL CLERK (clock & watch) alternate titles: production-control clerk

Keeps record of clock and watch parts being worked on and completed, and distributes material and parts to workers: Requisitions parts, based on production orders, and distributes parts to designated work stations. Moves completed work to next operation to keep workers supplied with material. Keeps records of quantity and type of material received, completed, and being worked on. Determines number of hours worked by employees in department, and collects work tickets from which pay is calculated. May be designated according to section of plant as Control Clerk, Repairs (clock & watch); Control Clerk, Subassembly (clock & watch); Control Clerk, Training And Mechanism (clock & watch).

GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 6 DLU: 77

221.387-022 ESTIMATOR, JEWELRY (jewelry-silver.)

Estimates amount of material and labor required to produce particular types of jewelry, utilizing knowledge gained from experience of designs and orders. Keeps record of estimations.

GOE: 05.09.02 STRENGTH: 5 GED: R4 M3 L3 SVP: 6 DLU: 77

221.387-026 EXPEDITER CLERK (optical goods)

Keeps production records to ensure that optical goods are delivered as promised: Reads prescription to determine date and time work is needed to meet mail or delivery schedule. Keeps chronological list of due dates for prescriptions. Removes work not meeting production schedule from production line and places at head of line. Records on prescription work order date and time material was delivered or shipped.

GOE: 05.09.02 STRENGTH: L GED: R3 M2 L3 SVP: 3 DLU: 77

221.387-030 JACKET PREPARER (print. & pub.)

Prepares jacket (worksheet) for guide in revising customer's printing job order: Compares new order with old one on file and records changes in format, such as size or color of sheet and content of material. Rewrites order listing changes and routes order to production department.

GOE: 07.05.03 STRENGTH: 5 GED: R3 M2 L3 SVP: 3 DLU: 77

221.387-034 JOB TRACER (clerical) alternate titles: job checker; job spotter; progress clerk

Locates and determines progress of job orders in various stages of production, such as fabrication, assembly, and inspection, and compiles reports used by scheduling and production personnel.

GOE: 05.09.02 STRENGTH: L GED: R3 M2 L3 SVP: 4 DLU: 77

221.387-038 LAUNDRY CLERK (clerical) alternate titles: floor clerk

Compiles and maintains work-production records of each employee for use in payroll and efficiency records. Frequently performs other clerical duties, such as recording weights of laundry bundles. May convert count of each type of garment to production points achieved, following prepared charts or verbal instructions.

GOE: 05.09.02 STRENGTH: L GED: R3 M2 L3 SVP: 3 DLU: 77

221.387-042 MELTER CLERK (foundry) alternate titles: weight-and-test-bar clerk

Records heat (crucible) numbers, composition of alloys, and identification of castings poured from each heat. Calculates amount of each metal for alloys according to standard formula. May stamp heat number on metal tags, using hand-operated press. May insert end of tag wire into metal to identify each casting.

GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 4 DLU: 77

221.387-046 ORDER DETAILER (clerical) alternate titles: job-order clerk; ticketer; work-order detailer

Compiles purchase orders and product specifications to prepare worksheets used in assembly or manufacture of products: Compares customer purchase order with specifications to determine method of assembly or manufacture and materials needed. Records data, such as quantity, quality, type, and size of material, and expected completion date, on worksheet. Obtains documents, such as assembly instructions and blueprints, from files and attaches to worksheet. Routes worksheet and other assembly documents to specified department. May keep inventory of stock on hand and requisition needed material and supplies. May compile purchase order data, maintain stock and production records, and prepare production worksheets, using computer. May prepare worksheets pertaining to cloth printing and mixing of printing colors and be designated Formula Checker (tex. prod., nec; textile). May prepare worksheets and order steel stock for rolling mill and be designated Provider (steel & rel.). May prepare work order and allocate silicon crystal ingots that meet customer specifications for use in manufacturing semiconductor wafers and be designated Allocations Clerk (electronics). May compile process specification sheets and prepare and issue materials for use in semiconductor crystal growing and be designated Production Material Coordinator (electron. comp.).

GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 4 DLU: 89

221.387-050 PRODUCTION ASSISTANT (chemical)

Estimates and orders quantities of raw materials, such as benzene, acetone, and alcohol, used in manufacture of explosives, and schedules their delivery to processing units. Prepares monthly inventory [INVENTORY CLERK (clerical)].
GOE: 05.09.02 STRENGTH: L GED: R3 M3 L3 SVP: 4 DLU: 77

221.387-054 BATCH-RECORDS CLERK (plastic prod.)

Compiles and maintains plastic-mixing and ingredient records, and prepares daily mixing instructions for use by MATERIAL MIXERS (plastic prod.) 550.685-130: Compiles and maintains daily mixing and perpetual inventory records from work orders, mixing logs, and formula cards that indicate production information, such as type and quantity of plastic ingredients mixed, ingredient formulas, number of products molded, and identification numbers of molds and molding machines utilized. Copies formula for each plastic mixture from specified formula card onto display card for use by MATERIAL MIXER (plastic prod.). Determines and records amount of plastic mixture required for each molding machine in daily mixing log, based on amount of mixture stored at each machine and knowledge of machine's consumption rate.
GOE: 05.09.02 STRENGTH: S GED: R3 M2 L2 SVP: 3 DLU: 86

221.467-010 GIN CLERK (agriculture) alternate titles: scale clerk

Weighs incoming cotton, computes ginning charges, and records production in cotton ginning establishment: Weighs truck or trailer loaded with cotton and records gross, tare, and net weights. Computes and records quantity of cotton ginned and baled, and records weight of cottonseed removed from cotton. Questions cotton owners to obtain baling and ginning instructions and records instructions on bale tags. Computes and records ginning charges, using rate chart and adding machine. May prepare payrolls and records of payments to growers and quantity of seed cotton received. May prepare cotton-classing samples and mail samples and ginning figures of individual growers to U.S. Department of Agriculture.
GOE: 05.09.02 STRENGTH: L GED: R3 M2 L2 SVP: 3 DLU: 77

221.482-010 FABRIC-AND-ACCESSORIES ESTIMATOR (garment)

Computes yardage and determines number of accessories, such as belts, linings, and labels, required in manufacture of women's garments: Reads cutting ticket to determine number of belts, buttons, labels, and amount of lining required for each style garment. Computes number of yards of material used for each style garment to ascertain number of yards per dozen. Types copies of cutting tickets and orders for various dressmaker's supplies. Keeps records of patterns.
GOE: 05.09.02 STRENGTH: S GED: R3 M3 L3 SVP: 3 DLU: 77

221.482-014 LUMBER ESTIMATOR (wood. container) alternate titles: estimator, lumber

Calculates number of board feet of lumber necessary to manufacture boxes and crates of specified size and number: Reviews customer order to determine quantity, size, weight, and shape of product to be packed. Computes number of board feet of lumber needed, using standardized measurement tables, calculator, and adding machine. Submits estimate to be used as basis for determining selling price of boxes or crates.
GOE: 05.09.02 STRENGTH: S GED: R3 M3 L3 SVP: 5 DLU: 77

221.482-018 TICKET WORKER (tobacco)

Collects weight tickets for leaf tobacco fed onto blending conveyor line during designated intervals. Computes and records total weight blended and percentage of each tobacco grade in blend, using adding machine and grade formulas, to provide production data for use by blending department supervisor. Occasionally performs miscellaneous nonclerical duties, such as feeding tobacco leaves onto conveyors, hand-straightening tobacco leaves, and sweeping floors.
GOE: 05.09.02 STRENGTH: L GED: R3 M2 L2 SVP: 2 DLU: 77

221.484-010 YARDAGE ESTIMATOR (garment)

Computes amount of fabric required to produce specified styles of garments in various sizes: Measures parts of sample garments or paper patterns to determine amount of fabric required to produce particular style of garment. Calculates amount of fabric required to produce specified style of garment in various sizes, using size charts. Positions parts of sample or paper patterns on length of fabric to estimate amount of fabric to be used from bolts for minimization of waste during marking operations.
