Keychain discount appreciated

In conjunction with CERT training in Irvine, CA, I enrolled in Red Cross CPR training, something I always wanted to learn. It was clear to me that having portable essentials to perform CPR was critical if I were ever in a position to save a life. The key chain packet I purchased was recommended by class instructors and has exactly when I need at my finger tips to protect me if I need to practice CPR and save a life. A face shield for mouth-to-mouth and gloves - the simple essentials for CPR. The packet is an easy fit on my key chain - and I typically always have keys with me. I highly recommend this simply and affordable essential for anyone who is CPR trained.

I appreciate the discount set up by the system when buying in bulk. Thank you!

[Show Full Review](#)

One recommendation I would have is if this keychain pouch could be shrunk to attach to keyring or be renamed to fit the function which is to attach to sport bags, bookbags, etc. Currently the size is so big that I can recommend it for attaching to beach, picnic, camping bags, etc. I understand you have a smaller one without the gloves but that model does not apply a discount when buying in bulk. If you can set up a bulk discount in the system for that model it would be great!

Training and field supplies

These items were a recent purchase. In my training I use these. I also give all of my students a keychain to keep with them. Better to have it and not need it, than need it and not have it!!

Keychain CPR

Got these little kits for my CPR class. They are handy , practical, ease to use , ease to carry with you. I think my class will like these little gagets and will carry them around to use when necessary.

I bought this about a month ago, I like the idea of having PPE how ever it is very large. It is hard to carry on keys due to the size. If it was half the size by placing gloves and mask on top of each other, than side by side this PPE would be great.

Feel Prepared

I bought this and carry with me everywhere. I feel I am more prepared if something does happen.

Excellent

I love the way you put everything in the keychain. Makes it easy to have with you at all times. It also arrived faster than promised. Job very well done. Could not describe myself because I don't fit in any of those categories. I am not a parent even though it selected that category for me

Perfect size and combo.

Purchased 3 each. One for the Wife and I and then an extra. We both carry ours. One question, does RC just sell the individual CPR Mouth Barriers? If so, being able to purchase replacements or extras would be great.
