WPATH is an international organization which focuses on global issues in transgender health. More local advocacy and policy can often be best accomplished by WPATH-affiliated regional associations. Each PATH has the advantage of WPATH affiliation while being able to focus activity and advocacy on the issues most important to that part of the world.

All US members of WPATH will automatically be members of USPATH. USPATH will be a nonprofit organization and will form when a Board of Directors is elected by the US members of WPATH. Then that board will solidify bylaws, organize committees, and conduct business under the WPATH umbrella.

## **USPATH Responds to the Supreme Court Ruling on Title VII of the Civil Rights Act**

USPATH hails the June 15, 2020, 6-3 Supreme Court Ruling establishing that Title VII of the Civil Rights Act protects transgender and other LGBTQ people from employment discrimination. The opinion, written by Justice Gorsuch, states:

In Title VII, Congress adopted broad language making it illegal for an employer to rely on an employee's sex when deciding to fire that employee. We do not hesitate to recognize today a necessary consequence of that legislative choice: An employer who fires an individual merely for being gay or transgender defies the law.

## **USPATH, WPATH, EPATH Statement: Black Lives Matter - A Call to Action**

USPATH, WPATH and EPATH stand in solidarity with those protesting the violent deaths of George Floyd, Breonna Taylor, Nina Pop, Tony McDade, and many other people of color who lost their lives needlessly from police violence. These names are just a few among countless who have lost their lives. We say their names to remember their lives and see their deaths as unacceptable acts of racist violence, contrary to our values. We demand that those responsible be held fully accountable for their actions.

People of color around the globe are rising up to have their voices heard, because they are disproportionately singled out for violence at the hands of law enforcement as well as experiencing systematic racism within all societal institutions. In these circumstances, we urge all our members to publicly condemn actions that harm and dehumanize people of color.

### **Welcome Newly Elected USPATH Board Members**

On behalf of the USPATH Officers, we want to thank you for voting in the USPATH Board Elections and thank all of the outstanding candidates for putting their names forward to run for the USPATH Board Member positions and for their willingness to serve USPATH.

[Board member Election Results](#)

**The members of the USPATH Taskforce along with the newly elected USPATH officers are pleased to invite nominations for the Board of Directors (BOD) of The United States Professional Association for Transgender Health (USPATH). Candidates must be full members of WPATH who reside in the United States.**

USPATH becomes a legal entity when elections are held, and the organization is incorporated. A Steering Committee was formed to get the organization off the ground, but the members of the Steering Committee will step down once all the USPATH Board of Directors are in place. The Steering Committee has been hard at work to establish an open election process, criteria for nominations, and newly-drafted bylaws for USPATH, which the new board may choose to adopt as they move forward. Thank you for your participation in creating this new organization!
