

We Deliver On Our Promises.

**It's time your carrier delivered everything it
promised.**

Cargo Transporters is an asset based carrier. We control the assets and the drivers are direct employees. Our customers work directly with those moving their freight, not a broker or independent contractor. This allows us to better manage capacity demands and equipment availability for our customers. We also deliver 100% of your freight on company truck. No brokering or owner operators.

Who We Are

Cargo Transporters provides the best in truckload, dry-van service in the 48 continental United States with special emphasis on lanes east of the Rockies. We operate as an intrastate and interstate common and contract authority specializing in time-definite or JIT/expressed truckload service.

What We Do

Cargo Transporters pursues opportunities with shippers looking to outsource transportation to a logistics supplier including the acquisition and/or disposition of private fleets.

How We Do It

As a US EPA SmartWay-certified carrier, our fleet incorporates a number of efficiency-enhancing technologies engineered to help us reduce emissions, fossil fuel usage and our impact upon the environment.
