Calculators

Calculator Name	Calculator
<b>Inflation</b> Easily find out how the buying power of the dollar has changed over the years using the inflation calculator.	
<b>Injury and Illness</b> Allows users to calculate injury and illness incidence rates for their specific establishment or firm and to compare them with the averages for the Nation, for States, and for the industry in which the establishment is found.	

Public Data Application Programming Interface (API)

Public Data API	API
<b>The BLS Public Data API gives the public access to raw economic data from all BLS programs</b>	

About the Tools

- 

Allows users to quickly retrieve BLS time series data from lists of those most commonly requested.
- 

Allows users to conveniently search multiple data sets all at once. Users can extract specific data by searching by keyword or by filtering through multiple topics, measures, and attributes.
- 

This application requires a Java-enabled browser. Choose the data you want from BLS databases on a simple, one-screen form.
- 

A form-based query application which allows you to obtain BLS time series data based on choices you make.
- 

A link to the BLS Download server. Given the limitations on the amount of data which can be extracted using any of the applications provided on the Web site, the Download server can be ideal for those users requiring large volumes of time series data.
