Blago was totally useless. That is why we voted for him.

The logic: Blago was "way to dumb to hurt us".

That's nice - another politician living on the public dollar while they are working very little. The more truths that come out about politicians the more horrifying it becomes. This is Obama's buddy (although Obama is running from him now) - no wonder the country and this state are in such a mess!

"I (expletive) busted my (expletive)....."

Yeah, for 2 to 8 hours per week apparently.

Electing this guy TWICE is something that ensures that the voting populace in Illinois may forever remain the stupidest collective of random idiots that has ever wandered the planet. Vote Quinn in next election and that's grounds for dropping a nuke in the dead center of our hopeless, moronic State.

I have been to Board Meetings where the Directors and President bragged about how much they have done and how much money they controlled.

Blago shows up for work 8 hours a week and spends it in the restroom doing what? collecting envelopes under the stall stuffed with hundreds?

There's an image... Blago hiding in the can dodging people who want him to actually do his job. Too funny. What a loser that guy was.
