The Web's most current and comprehensive directory of Patient Assistance Programs

Patient assistance programs are run by pharmaceutical companies to provide free medications to people who cannot afford to buy their medicine. RxAssist offers a comprehensive database of these patient assistance programs, as well as practical tools, news, and articles so that health care professionals and patients can find the information they need. All in one place.

Welcome

Please visit either the [Patient Center](#) or the [Provider Center](#) to access the database and other resources.
