ABOUT DYNAMIC INTERNATIONAL

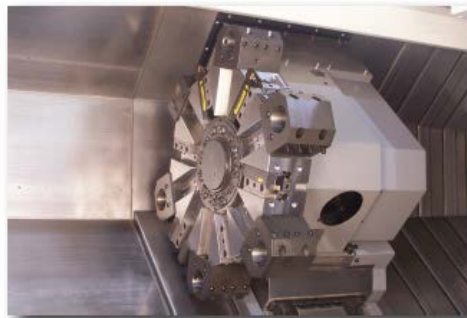

Founded in 1986, Dynamic International has grown from its native Wisconsin & Michigan roots to become a national sales enterprise comprising a network of distributorships and a multi-million dollar international corporate entity. We provide state-of-the-art Die/Mold machine solutions for a broad-base of discriminating North American companies.

Dynamic International has always been dedicated to developing and maintaining long term relationships with our customers. We continually work and monitor to improve our performance in order to provide customers with superior service. Our achievement completely depends on the satisfaction with the service and support we give our customers. We are proud to say that over 80% of our customers are multiple machine users.

We invite you to take a few moments now and review our products or locate the distributor nearest you. Contact us with any application or machining need and discover yourself why Dynamic is "Dynamic!"

THE DYNAMIC MISSION

Our mission at Dynamic International is locate, secure, and deliver the most appropriate machine tools for the job. Dynamic International, founded in 1986, is a national distributor of vertical & horizontal machining centers, CNC lathes, vertical turning lathes, horizontal boring mills, large gantry machines, high speed 5-axis machinery, bridge and floor type mills, and gun drills.

We understand and appreciate the many challenges our users face regarding accuracy, efficiency, & complexity and are happy to walk them through the entire process from start to finish. We support our customers after the sale by providing the highest quality service available in the industry with service engineers available all over the country and thousands of parts stocked at our headquarters to ensure fast delivery.

At Dynamic International we understand we are one of the many links in a long chain of actions that must take place in order for you to enjoy success, but we promise to work hard and provide you everything you need to get there.
