Exchanges support forward deployments, ships at sea, emergency and disaster relief efforts, international exercises, and contingency operations. Resale activities of blind vendors are governed by DoD Directive 1125.3 (reference (c)).

6.2. Merchandise Restrictions. The Armed Services Exchanges are authorized to sell items of merchandise and offer retail services to provide a well-rounded program, except as restricted in enclosure 4. Merchandise restrictions apply to direct sales, including by special order catalog or e-commerce, and to indirect or concession activities.

E4.1.4.1. CONUS exchanges may not undertake new capital construction or renovation of an exchange facility of any kind for the purpose, in whole or in part, of providing additional space in which to sell finished furniture.

E4.1.4.2. At any new installation or location at which the exchange service proposes to sell finished furniture, the exchange manager or installation commander shall consult in advance with local furniture merchants and the exchange service shall advise the Office of the PDUSD(P&R) of the proposal and any local merchant objections to exchange sales of finished furniture. Such notice to the Office of the PDUSD (P&R) shall be made 60 days before offering finished furniture at any new location so the Office of the PDUSD (P&R) may notify the Congressional Committees on Armed Services in advance. The PDUSD(P&R) must approve the offering of finished furniture at new locations and shall notify Congress of such approval prior to offering finished furniture at new locations.

E4.1.5. Exchanges in CONUS may not sell decorative housewares and furnishings with a per-unit (piece) cost to the exchange in excess of \$500.

E4.1.6. ALCOHOLIC BEVERAGES OPERATIONS

E5.1. APPLICABILITY AND AUTHORITY

This section applies to the sale of alcoholic beverages in the exchange systems.

E5.2. RESPONSIBLE USE OF ALCOHOL

The Military Departments shall establish programs, policies, and procedures consistent with DoD Directive 1010.4 (reference (t)) to deglamorize the use of alcohol and to discourage and treat its irresponsible use.

E5.3. ALCOHOLIC BEVERAGE LABELING

The provisions of the Alcoholic Beverage Labeling Act of 1988, 27 U.S.C 213 (reference (u)) shall apply to all alcoholic beverages sold in exchange activities in CONUS and OCONUS . This includes the requirement that alcoholic beverages purchased offshore carry labels as required of U.S.-procured products.

E5.4. ESTABLISHMENT AND CONTINUATION OF EXCHANGE PACKAGE STORES IN THE UNITED STATES

In the United States and Puerto Rico, the Secretary concerned may approve the sale of packaged alcoholic beverages with an alcohol content of more than 7 percent by volume.

E5.4.1. Establishment. Before authorizing the establishment of a package store, the Military Department Secretary shall review the following pertinent factors:

E5.4.1.1. Estimated number of authorized patrons per outlet if granted.

E5.4.1.2. Importance of estimated contributions of package store profits to providing, maintaining, and operating military MWR activities.

E5.4.1.3. Availability of wholesome family social clubs to military personnel in the local civilian community.

E5.4.1.4. If on a National Guard installation, coordination with the State Adjutant General concerned.

E5.4.1.5. Geographical inconveniences.

E5.4.1.6. Limitations of nonmilitary sources.

E5.4.1.7. Disciplinary and control problems due to restrictions imposed by local law and regulations.

E5.4.1.8. Highway safety.

E5.4.1.9. Location and distance of nearest military package store and reasons that the use of this facility is not feasible.

E5.4.1.10. A digest of the attitudes of community authorities or civic organizations toward establishment of a package sales outlet. This digest should consist of a summary of the community authorities and civic organizations, including the means of contact, the date contact occurred, and any written comments received from individuals and agents such as local mayors, heads of prominent civic groups or Chambers of Commerce, State legislators, Members of Congress, or other government officials. Speculative assessments of prospective community attitudes shall not satisfy this requirement. The use of available command channels is encouraged.

E5.4.2. An information copy of the Military Department review shall be submitted to the PDUSD(P&R) for each action approving the establishment of sales outlets for packaged alcoholic beverages, including the determinations and findings made in accordance with the criteria as stated above. The review shall be submitted to the PDUSD(P&R) 60 days prior to the establishment to provide for advance notification to Congress.

E5.4.3. Triennial Review. The Secretary concerned shall conduct a triennial review of each package store in the United States to determine the need for its continued operation. The evaluation shall consider the factors required to establish a package store, except subparagraph E5.4.1.10., above.

#### E5.5. ESTABLISHMENT OF EXCHANGE PACKAGE STORES OVERSEAS

Outside the United States, the sale of packaged alcoholic beverages with an alcoholic content of more than 7 percent by volume may be approved by the exchange service Commander/Chief Executive Officer provided such sales do not contradict treaties, SOFA, and local governmental agreements.

#### E5.6. NONALCOHOLIC AND ALCOHOLIC-TYPE BEVERAGES

The sale of packaged nonalcoholic, alcoholic beverage substitutes shall be carried out only in exchange facilities. Due to the disparity in State laws on the classification of "nonalcoholic," these products shall be sold only to those customers authorized to purchase alcoholic beverages.

#### E5.7. PACKAGE STORE OPERATIONS

Where a package store operation is authorized for an installation, exchange systems may operate in an independent facility, or, merge the alcoholic beverage operations with other exchange activities provided the installation commander concurs, the stock and displays are segregated, and all inventory controls, ration controls, signage required for alcoholic beverages are in effect.

#### E5.8. PURCHASE OF ALCOHOLIC BEVERAGES FOR RESALE

Alcoholic beverage shall be purchased by the exchange service for resale from the most competitive source and distributed in the most economical manner, price, and all other matters considered. The most economical method of distributing distilled spirits to stores shall be found by considering all components of distribution costs incurred in distributing beverages to the stores including all management, logistics, administration, depreciation, utilities, inventory carrying, handling, and distribution costs. In Alaska and Hawaii, alcoholic beverages shall be purchased from and delivered by a source within the State in which the military installation is located.

E5.8.1. Malt beverages and wine shall be purchased from and delivered by a source within the State in which the military installation is located. If an installation is located in more than one State, then the source may be in any State in which the installation is located.

E5.8.2. State and Local Government. DoD resale activities are not subject to State and local laws, regulations, control, or taxation. It is DoD policy to cooperate with State and local officials to the degree that their duties relate to the provisions of this Instruction. The factors to be considered in sections E5.4., and E5.9. of this enclosure, shall not be construed as meaning any submission to State control, nor shall cooperation be construed or represented as an admission of any legal obligation to submit to State control, pay State or local taxes, or purchase distilled spirits within geographical boundaries, from suppliers or at prices prescribed by any State.

E5.9. POSSESSION

Packaged alcoholic beverage sales outlets are operated solely for the benefit of authorized customers. Authorized purchasers shall not sell, exchange, or otherwise divert packaged alcoholic beverages to unauthorized personnel.

E5.10. OVERSEAS WINE SALES

In accordance with 10 U.S.C. 2489 (reference (v)) Armed Services exchanges outside the United States engaged principally in selling alcoholic beverages will, in general, give equitable treatment to American produced wines, in terms of selection, distribution, and price, when compared with wines produced by the host nation. The exchange service shall:

E5.10.1. Work with U.S. wine producers to assist and facilitate the supply and marketing of U.S.-produced wines in package stores outside the United States. Each package store shall separately and/or prominently identify or display U.S.-produced wines.

E5.10.2. Carry a representative number of American wines in each category and price level that compares with the selection of host-nation wines.

E5.10.3. Ensure that the percentage of markup on host-country wines shall be equal to or more than the percentage of markup on American-produced wines.

E5.10.4. If there is conflict between this policy and a SOFA or other country-to-country agreements, the latter shall prevail.

E5.11. IN-HOUSE PROMOTIONS OF ALCOHOLIC BEVERAGE SALES

Coupons, bag stuffers, free samples, or any other media used to promote or advertise the sale or consumption of specific brands of alcoholic beverage are prohibited. Examples include, but are not limited to, cents-off coupons, chit books, courtesy cards, slips, coupons books, and product samples designed to reduce the normal retail sales price charged by package beverage stores as established above. This does not prevent conducting on-premise beverage tasting.

## E5.12. COMMERCIAL PROMOTIONS OF ALCOHOLIC BEVERAGE SALES

Exchange systems are not authorized to participate in any type of alcoholic beverage promotion sponsored by commercial enterprises that is directed or targeted primarily or exclusively at the military community (uniformed or retired personnel, either on active duty or serving in any category of a Reserve component, and their dependents).

Examples of promotions include, but are not limited to, sweepstakes, lucky number events, bottle-top redemption, premiums, discount coupons, or providing sample products. This does not prevent conducting on-premise beverage tasting. Package beverage stores may participate in promotions available to the general public at large.

E8. ENCLOSURE 8

EXCHANGE OPERATIONS ON CLOSED INSTALLATIONS

E8.1. REALIGNMENT AND CLOSURE

Where military realignment and installation closure costs adversely impact exchange earnings, affected exchanges are authorized to receive APF. Where permitted by law, this includes all Base Realignment and Closure (BRAC) accounts.

E8.2. BRAC FUNDING

Exchange programs may receive BRAC funding for expenses affecting personnel (civilian severance pay, civilian PCS, outplacement, transportation of things, etc.) to the extent authorized by reference (f). When NAF facilities are transferred in connection with the closure or realignment of a military installation, exchanges may also receive funding from the Reserve Account up to the depreciated value of the investment. Use of funds from the Reserve Account is specified in reference (j).

E8.3. PROPERTY

Exchange service NAF personal property is not Government APF property. At BRAC locations, this NAF property may be removed or sold to the local redevelopment authority for fair market value at the exchange service's discretion. Every effort should be made to ensure that the local redevelopment authority is aware of the difference between NAF and APF property.

E8.4. EXCHANGE OPERATIONS ON CLOSED INSTALLATIONS

Exchange operations may be provided to patrons in the immediate area of closed installations in the United States, its territories and possessions under specific criteria.

E8.4.1. Exchange operations are authorized on closed installations based on either Reserve component or active duty patron bases remaining on the closed installation, or in the immediate vicinity.

E8.4.2. Main exchange and other major exchange operations on closed installations shall be endorsed by the Secretary of the Military Department concerned and approved by the PDUSD(P&R). The exchange Service Commander shall approve troop stores, concessions, food, and shoppette-type operations on closed installations after a final decision from the Military Department.

E8.4.3. The general criteria for continuation of exchange operations on closed installations in the United States are:

E8.4.3.1. The needs and welfare of the remaining active duty military community shall be given primary consideration.

E8.4.3.2. The installation no longer has a full-time active duty mission, but active duty Uniformed Service personnel remain on the former installation or in the immediate area. This includes the actual installation and Government-owned or contracted housing.

E8.4.3.3. The Military Department shall confirm the number of active duty personnel who shall be stationed on and in the immediate area of the closed installation after the installation is closed. Active duty personnel are Uniformed Service personnel with DD Form 2 (Active) identification cards.

E8.4.3.4. Where possible, as determined by the Military Department, the exchange operations shall complement the local community reuse plan and have written community support from the local government(s) in the immediate area surrounding the closed installation.

E8.4.3.5. The closed installation shall be over 20 miles from another active installation or a Government-owned or contracted housing area that is authorized exchange support. If the active installation is fewer than 20 miles from the closed installation, the active installation's exchange shall be able to accommodate the additional patron migration.

E8.4.3.6. Requirements for facilities and programs shall consider that all authorized patrons (including Reserve components and retirees) may continue to use the exchange programs.

E8.4.3.7. New construction or expansion of an existing facility on a closed installation should not be required. This does not preclude renovations, maintenance and repair, and minor construction on existing facilities when justified. Exceptions to allow major construction shall be approved by the PDUSD(P&R) and forwarded to Congress for approval, as required.

E8.4.4. In addition to the foregoing criteria, the PDUSD(P&R) shall approve main exchanges and other exchange operations for closed and realigned installations with a predominant Reserve Force, based on the following specific criteria, if the exchange operations:

E8.4.4.1. Provide an otherwise unavailable benefit to a substantial number of authorized patrons remaining in the area.

E8.4.4.2. Require no APF. Exchanges are authorized to receive support for common services normally provided, such as police and fire protection.

E8.4.4.3. Complement the local community reuse plan and have local community support.

E8.4.4.4. Require a Reserve Force as part of the patron complement, based on the Reserves' entitlement to full exchange privileges.

E8.4.4.5. Do not require new construction or expansion of an existing building. Renovations and minor construction on existing buildings are allowable, when justified.

E8.4.5. All exchange operations on closed installations shall undergo a 1-year test period to establish profitability. For operations that are not profitable, the exchange service shall take action to achieve profitability. Any operation with a loss for any 2 consecutive years or with a loss for 2 out of 3 years shall close.

## E8.5. COMBINED COMMISSARY AND EXCHANGE STORES ON CLOSED INSTALLATIONS

Before evaluating a combined store, the Secretary of the Military Department concerned shall decide if a "limited commissary benefit" shall be supported at the location. A "limited commissary benefit" is defined as grocery (edible) food items sold at cost plus 5 percent to authorized exchange patrons. Where the Military Department(s) supports a "limited commissary benefit" (including the associated APF costs) and an exchange and commissary already operate at the location, an exchange-operated combined commissary and exchange store shall be evaluated by the Armed Service exchange that operates at the location.

E8.5.1. A recommendation to create a combined store shall be based on the following criteria, which apply to all models of combined stores operated by the Military Department, except those specifically excluded by or under an agreement in effect before the enactment of 10 U.S.C. 2490a (reference (z)):

E8.5.1.1. Active duty personnel remain on the installation or within a 20 mile radius of an installation.

E8.5.1.2. The closest installation with an active duty mission, or a Federal Government-owned or contracted housing area that has commissary and exchange support is a one-way distance of at least 20 miles away. If the one-way distance is fewer than 20 miles, and the commissary and exchange are able to accommodate the additional patron migration, a combined store shall not be considered.

E8.5.1.3. In the case of a closed installation:

E8.5.1.3.1. Where possible, as determined by the Secretary concerned, the combined store must complement the local reuse plan and have written support from the local government(s) immediately surrounding the closed installation.

E8.5.1.3.2. Space must be available in an existing facility. New construction or expansion of an existing facility on a closed installation shall not be required. Renovations, maintenance and repair, and minor construction on existing facilities are allowable, when justified. Exceptions to allow major construction shall be approved by the PDUSD(P&R).

E8.5.1.3.3. Requirements for facilities and programs shall consider that all authorized patrons (including Reservists and retirees) may continue to use MWR and resale programs.

E8.5.1.4. The number of combined stores in the United States shall not exceed ten.

E8.5.1.5. Only an Armed Service Exchange may operate a combined store.

E8.5.1.6. Edible groceries shall be sold at cost plus 5 percent. Other items may be priced in conformance with paragraph 4.10. of reference (b).

E8.5.1.7. The combined store shall be economically viable and shall not negatively impact MWR dividends, after authorized APF is provided, as discussed below.

E8.5.1.7.1. The cost for the combined grocery store operation must yield at least a 10 percent annual savings compared to the cost for the Defense Commissary Agency (DeCA) to operate a downscaled commissary. All operating costs, including facility, equipment and manpower, both one-time and recurring, that are required shall be considered when making this comparison.

E8.5.1.7.2. DeCA and the Military Department(s) shall provide APF to the Armed Service Exchange for the combined store only if the grocery operation suffers a net loss during the Federal fiscal year, provided that there is an annual loss from all exchange-operated activities at the installation. The annual APF support shall be limited to 25 percent of the last full fiscal year of DeCA's cost to operate the commissary store at that location. Within the limitations, the amount shall be based on a pro rata share of:

E8.5.1.7.2.1. Store-specific costs determined by the percentage of store sales associated with edible grocery items; plus,

E8.5.1.7.2.2. "Above the store level" overhead (exclusive of MWR dividends) that shall not exceed 2.5 percent of edible grocery item sales.

E8.5.2. The combined store operation shall be reviewed annually by the Military Departments and the Commissary Operating Board (COB) to ensure that criteria are still met. A combined store operation with a loss for two consecutive years or with a loss for 2 out of 3 years shall close. If the location is closed as a combined store operation, the exchange may reestablish the operation as a stand alone independent exchange selling all merchandise including food at regular exchange mark-ups provided it conforms to section E8.4. and paragraphs E8.5.4. and E3.3.1. If an operation reopened as an independent exchange continues to post a loss, the exchange and the host military Service shall determine the continuance of the operation.

E8.5.3. Based on the above analysis, the Director of DeCA, following coordination with the Military Department(s) and the Armed Service Exchange concerned, shall provide a recommendation to the COB regarding the need to close or to create a combined store. The COB shall forward its recommendation to the PDUSD(P&R). A decision to close or create a combined store must be approved by the PDUSD(P&R). The PDUSD(P&R) shall notify the Congress 90 days before action is taken.

E8.5.4. If a "limited commissary benefit" is not warranted at the location, then the Armed Service Exchange may elect to sell edible food items at the location, but APF support designated for commissaries shall not be provided to offset the exchange cost of selling edible groceries

#### E8.6. REPORTING REQUIREMENTS

The Military Departments, DeCA, and the COB shall submit their recommendations, along with the "DoD Commissary Operations Report" (Report Control Symbol DD-FM&P(A)1187) required by DoD Directive 1330.17 (reference (aa)), to the PDUSD(P&R) by April 1<sup>st</sup> of each year.
