Welcome to the USPTO Patent Trial and Appeal Board End to End System

The Patent Trial and Appeal Board End to End (PTAB E2E) is a system designed for the Patent Trial and Appeal Board (Board) for the purpose of electronically filing documents in connection with the Inter Partes Disputes established under the Leahy-Smith America Invents Act (AIA).

PTAB E2E is designed so that its use is consistent with the [Patent Trial Practice Guide](#) and requirements of 37 C.F.R. Part 42. Electronic filing is the default manner in which documents are to be filed with the Board, 37 C.F.R. § 42.6 (b). The Board has established PTAB E2E to be the official means for electronically filing legal documents with the Board in connection with the following inter partes dispute types - Inter Partes Review (IPR), Transitional Program for Covered Business Method Patents (CBM), Post Grant Review (PGR), and Derivation Proceeding (DER) established under AIA to be conducted by the Board. Unless otherwise specifically authorized by the Board, all documents submitted for filing in connection with the inter partes dispute under AIA must be filed electronically using PTAB E2E. Using this system, parties have the ability to submit a petition to request an inter partes dispute to be instituted, to participate as a patent owner or respondent in an inter partes dispute, and to perform certain actions during an inter partes dispute.
