## Xlibris

### Self-Publishing Pioneers

A pioneer of the supported self-publishing industry, Xlibris is a book publishing company created by authors, for authors. Xlibris has helped over 50,000 authors publish over 75,000 unique titles. One of its founding principles, which still stands since the company started publishing in 1997, is that authors should have control over their work. Xlibris holds true to this purpose as they help hundreds of authors publish every month in the method of their choosing.

### Focus on creativity and customization

By focusing on the needs of creative writers and artists, as well as on new approaches to print-on-demand technology, Xlibris helps authors bring their publishing visions to life. The comprehensive range of publishing, editorial, add-on and marketing services offered by Xlibris enables authors to customize their publishing experience, choosing the publishing package and services that fit best with their goals.

There are also international divisions of Xlibris in the United Kingdom (/Our-Services/International-Imprints/Xlibris-UK/), Australia (/Our-Services/International-Imprints/Xlibris-AU/) and New Zealand (/Our-Services/International-Imprints/Xlibris-NZ/).

Learn more about Xlibris by visiting [www.xlibris.com](http://www.xlibris.com) (<http://www.xlibris.com>).
